EDUCATION

Quantum University, Roorkee

2022 – 2026

B.Tech in Computer Science and Engineering — Roorkee, Uttarakhand

EXPERIENCE

Frontend Developer — iNext Web Technologies Pvt Ltd

April 2026 – Present

Chandigarh

- Working on ERPAG, an ERP platform built using the MERN stack, contributing to features that help manage core business operations end-to-end.
- Contributing to a B2B project, building and maintaining frontend features to support business-to-business workflows.

Frontend Developer — CodTech IT Solutions

July 2024 – August 2024

Remote

- Designed and developed an animated, fully responsive portfolio website from scratch using HTML, CSS, and JavaScript, incorporating smooth transitions and micro-interactions to strengthen visual appeal.
- Improved UI consistency and cross-device usability by implementing CSS media queries and responsive layout techniques, ensuring seamless rendering across desktop, tablet, and mobile screens.

SAP Consultant Intern — Neel Metal Products Limited

July 2025 – August 2025

Haridwar, Uttarakhand

- Gained hands-on exposure to SAP S/4HANA modules, working alongside consultants to understand configuration and core business process flows.
- Studied end-to-end ERP integration within a manufacturing environment, gaining practical insight into how SAP supports production, inventory, and supply chain operations.

PROJECTS

Food Delivery Web Application

Jan 2025

MERN Stack | [GitHub](#)

- Built a full-stack food delivery platform using the MERN stack with JWT-based authentication for secure user access.
- Designed RESTful APIs using Node.js and Express.js, with MongoDB for scalable data management.
- Created a responsive React.js UI to enhance user experience across devices.
- Integrated ImageKit for optimized storage and delivery of food images and videos.

Real-Time Chat Application (QuickChat)

Oct 2025 – Nov 2025

MERN, Socket.IO | [GitHub](#)

- Developed a real-time chat application using Socket.IO for instant messaging.
- Implemented secure JWT-based authentication with encrypted credentials.
- Stored user data and chat history using MongoDB.
- Integrated Cloudinary for image and file sharing.
- Built a responsive UI using React.js and Tailwind CSS with live status indicators.

QuickAi – AI SaaS Productivity Platform

2025

PERN Stack | [GitHub](#)

- Developed an AI-powered SaaS platform offering content generation, image creation, and resume review tools.
- Integrated Gemini APIs for AI-driven text and image generation.
- Implemented authentication and subscription billing using Clerk.
- Designed a modern dashboard for managing user creations and plans.
